The Power of Positive Thinking at Workplace

Retail

Communication Platform

We all want a happy life, and we all know that having a *positive thinking* feels better than a negative one. But for some reason, we are all attracted to and can be easily drawn to the negative side. However, having a *positive thinking* is not always easy. How do we go about to establish a more positive attitude as a daily habit?

Under the series activity of Retail Communication Platform in 2015, the Association is introducing emotion management related sharing. We invited Mr. Chan Hing Lun, ICAN Registered Trainer, Whole Person Development Institute, to share how we can establish a positive mindset, reignite yourself and encourage de-motivators through positive thinking at work.
